

Human Resources Management Services

Often times, mid to smaller sized organizations know they need a formal human resources function, but unfortunately don't have the resources to invest in one... until now.

Through the Sidney-Shelby County Chamber's association with the Southern Ohio Chamber Alliance (SOCA), our members can take their organizations to the next level by adding an outsourced Human Resources function to their daily operations.

Introducing Strategic HR. Strategic HR often partners with organizations that have a lean HR department or no formal HR function at all and they do so without adding headcount. Services offered include virtual only resources to assist with HR compliance OR a subscription option where a higher level of service is included that provides access to a team of HR professionals who can help guide you through more complex HR related policy decisions.

Protect and grow your bottom line by improving your HR function. Although these services can never take the place of expert legal advice, they will serve as a best practices platform for your organization and reduce your exposure to employment related infractions.

If you have questions, please contact Becky at Strategic HR; (513) 247-5891.
